Communication style:

Understanding your communication style

The DiSC behavioural style inventory

DiSC enables you to analyse yourself and others, so you can modify your communication to suit. We teach you how to be a flexible communicator, so you can make the most of every environment.

Diversity in a group

- Understanding your behavioural style
- Pluses and minuses of your style in the team context
- Working with other people's styles so you can make the best of the difference
- The psychology behind the model
- Your behaviour under pressure
- How to quickly work out where other people fit in the system, so you can work best with them
